## Career Middle School

### Welcome to the Transformation Zone!

We are so excited to have an opportunity to extend our school day by offering unique and innovative learning opportunities for our students!

#### What will we do with the extra 45 minutes of learning time each day?

- Extra time will provide time for students to explore their interests by doing hands on learning activities.
- Extra time will provide time to work on their personal learning goals and activities.
- Extra time will be provided in Math and English classes.

#### What will we do with the extra days in our calendar?

- Extra days provide more instruction time, which helps students grow in their learning.
- Extra days can provide extended opportunities for learning experiences outside of our school.

#### Why are parent-teacher conferences on a Saturday?

- We want to provide time for parents to learn about their child's learning progress and we know families are often busy during the week.

#### What happens if my child is absent on one of the extra days of learning?

- The same attendance policy that is already in place for Kokomo School Corporation will still be in place.

#### Who will be my child's teachers?

- Class schedules will be available the night of our Open House. Tuesday, July 30 from 5-6:30 pm.

#### Who can I contact with questions?

- Contact the Bon Air Career Middle School Main Office.
